

Wraps

Our wraps are often used to group and protect products, typically drinks bottles and cans. A sustainable alternative to plastic wraps, they offer a high impact branding opportunity while being fully recyclable.

Features

- Designed to be formed and sealed around your products to hold them together
- High quality, lithographic print, added value embellishment and finishing techniques
- Camera controlled precision flat bed hot foil blocking and die cutting

Options

- Variety of market-tested boards, finishes, formats and sizes
- Plain or printed, varnished, foiled, embossed/debossed
- Choice of glued, or unglued with a tuck lock

Benefits

- Impactful branding opportunity while grouping and protecting your products
- Runs down automated lines, speeding up the packing process
- Benefit from our team's expertise for machine installation and engineering support services

Design for Sustainability

- Wraps are an environmentally friendly alternative to plastic wrap
- FSC Certified materials available
- 100% recyclable
- Benefit from our CAD layout know-how to find the best format to generate minimum waste
